SnapLogic Integrator Certification

Audience SnapLogic integration developers

Target group SnapLogic integration developers and SnapLogic partners

Duration 40 hours estimated (Test 8 hours estimated)

Description The SnapLogic Integrator Certification is aimed at testing your expertise on all the core aspects involved in using the SnapLogic Intelligent Integration Platform for various integration needs across industries and lines of business.

To prepare for the certification, you will have to finish all courses outlined in the training path below. We provide access to the Certification Training Path materials for one month to complete this certification.

Certification path requirements Before taking the certification exam, you must complete all the courses and videos outlined in the Certification Path below:

1. SnapLogic Beginner Training (6 hours of learning)

2. Creating and Managing Ultra Tasks (3 hours of learning)

3. Migrating Pipelines and Projects from One Org to Another Using SnapLogic Metadata Snaps (1 hour of learning)

4. User Assistance Videos for Most Commonly Used Endpoints (60 Videos | 15+ Endpoints | 10 hours of learning). Endpoints for which we currently have videos include:

SOAP	S3	SAP	NetSuite	Salesforce
Anaplan	JDBC	JMS	SQL Server	ServiceNow
Workday	REST	Redshift	Big data	Oracle

E-learning users can credit the completion of the above mentioned courses toward their certification if all of the required courses and videos have been completed within one year of the certification exam date.

Certification exam ○ The Certification Exam consists of two parts:

1. Multiple choice questions - a set of multiple choice questions that assess your understanding of various SnapLogic concepts and implementation details.

2. Scenario-based assessment - a set of 4 scenarios in which you must create Pipelines & Tasks to implement the described scenarios.

The results of the multiple choice questions are immediately displayed along with the answers that were incorrect.

The Pipelines & Tasks created will be validated by the SnapLogic team within two weeks. After we complete the assessment, you will receive an email notifying you of the results and the completion certificate upon the successful completion of the certification. You are expected to finish all of the certification path requirements and the certification exam within a one-month time frame.
