

# SnapLogic AutoIDP

## Gen AI-powered Intelligent Document Processing

With 90% of enterprise data buried in unstructured formats, the challenge to harness this wealth of information has never been greater. SnapLogic AutoIDP, part of the GenAI Builder solution, is the key to unlocking the potential of your data, allowing you to automate complex business processes, make faster decisions, and achieve a comprehensive, 360-degree business perspective.

By integrating Generative AI, Large Language Models (LLMs) and computer vision, SnapLogic AutoIDP empowers enterprises to expedite digital transformation. Extract critical data and insights from a myriad of documents and unstructured content to automate further and make faster, more accurate business decisions.

### Quick Stats:

- **Efficiency redefined**  
Process up to 90% of unstructured data to streamline operations and uncover deep insights.
- **Automation unleashed**  
Simplify automated processing of documents such as invoices, POs, loan applications and insurance claims.
- **Unprecedented insights**  
Leverage automated summarization of diverse documents—from research reports to financial statements—for a true 360-degree view of your enterprise.

### Business Process Automation

AutoIDP is your solution to document-centric process automation, adept at extracting and digitizing data from various documents, including:

- Invoices
- Purchase Orders
- Resumes
- Insurance claims
- Loan applications

### Key Capabilities

- **Digitization:** Convert documents to actionable data with PDF Parser Snap.
- **Extraction:** Utilize LLM Snaps to pull data from semi-structured or unstructured text.

### Make Faster Decisions

Empower your decision-making with AutoIDP’s rapid summarization and insight extraction capabilities from:

- Research papers
- Articles
- Analyst reports
- Financial reports
- Contract terms

### Key Capabilities

- **Digitization:** Transform PDF documents into data-rich resources with PDF Parser Snap.
- **Summarization:** Condense information and extract valuable insights using LLM Snaps.

## Gain a 360-Degree View

Achieve an all-encompassing perspective of your business by digitizing and summarizing essential data sources, including:

- Support documents in customer tickets
- Account executive notes in opportunities
- Manufacturing inspection reports

### Key Capabilities

- **Digitization:** Process PDF documents seamlessly with PDF Parser Snap.
- **Insight extraction:** Derive meaningful insights from unstructured text with the power of LLM Snaps.

## AutoIDP Solution

AutoIDP is part of SnapLogic's GenAI Builder solution, which helps organizations build enterprise-grade, LLM-powered applications without writing any code. The AutoIDP solution is a collection of Snap Packs and pre-built pipeline patterns that help you automatically leverage documents to automate internal processes.

- PDF Snap Pack to parse, merge, format, encrypt, and decrypt PDF documents such as invoices, POs, resumes
- Pre-built Pipeline Patterns for invoice processing, PO processing, document summarization, resume processing, etc.
- (Coming soon) HTTPClient Snap Templates to easily connect to LLMs such as ChatGPT, Claude, Vertex, etc.
